

BEFORE...

LEFORNNNN

Rihmat

HUFF...
HUFF... WE... DID IT...
CAN'T *BELIEVE*... IT
ACTUALLY WORKS.

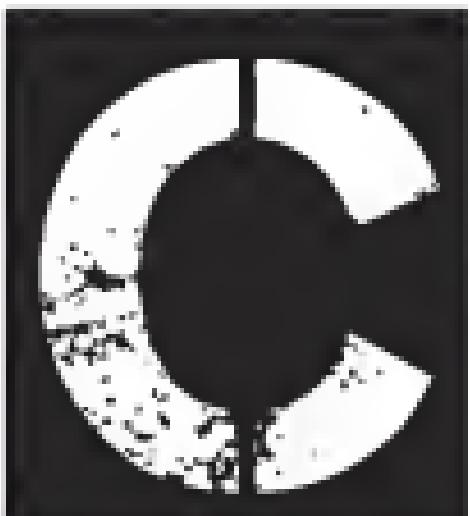

YEAH...
WHO EVER
MADE THIS... HUFF...
MADE IT VERY
WELL!

WOAH!

CLINK

A large, bold letter 'C' is shown from a three-quarter perspective. The letter has a thick black outline and a white interior. The surface of the letter is covered in a dark, grainy texture, giving it a distressed or heavily processed look.

The letters 'T', 'Y', 'O', and 'F' are stacked vertically. The 'T' and 'Y' are on top, and the 'O' and 'F' are on the bottom. They have a similar distressed, textured appearance to the letter 'C' above them, with dark, grainy surfaces.

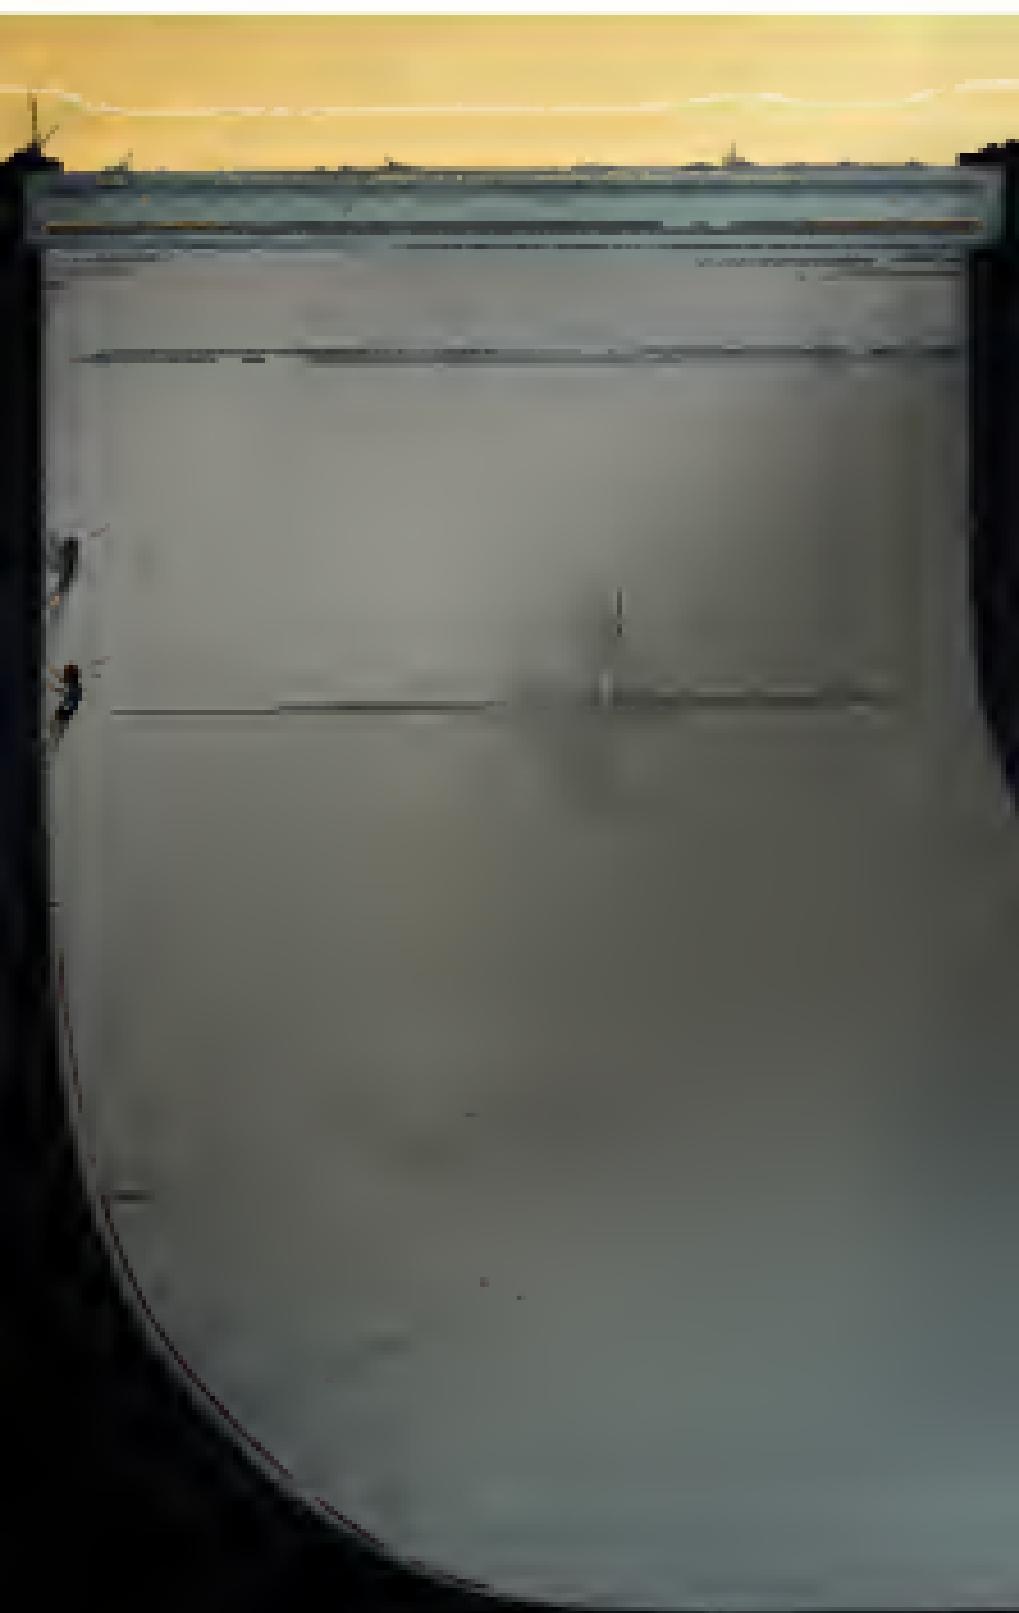

The letters 'M', 'A', 'I', and 'S' are stacked vertically. The 'M' and 'A' are on top, and the 'I' and 'S' are on the bottom. They have a similar distressed, textured appearance to the other letters, with dark, grainy surfaces.

Episode 26

Chapter 5

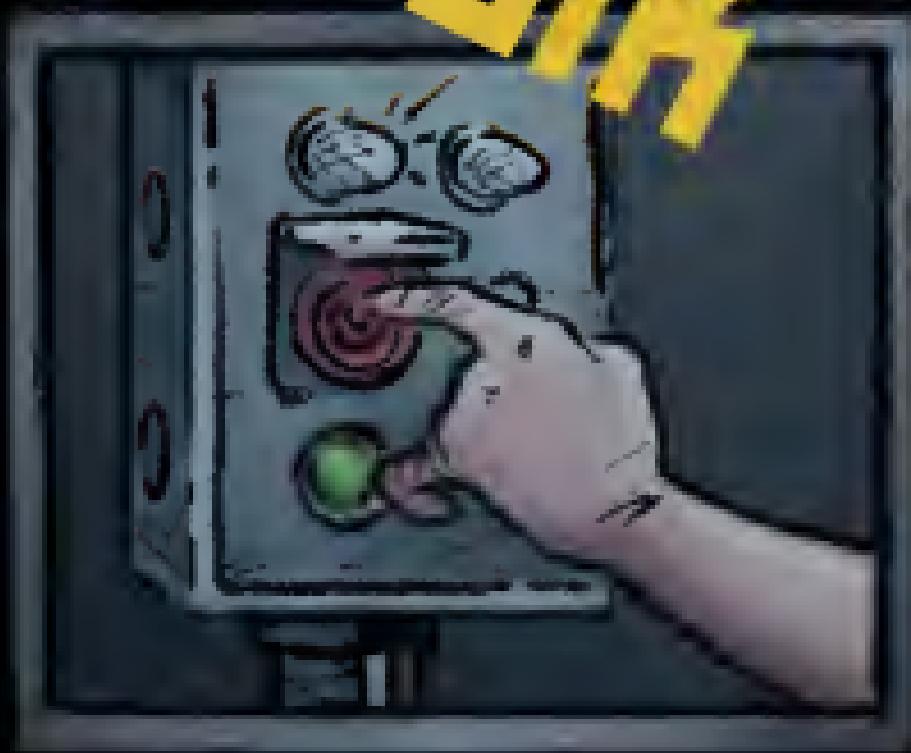

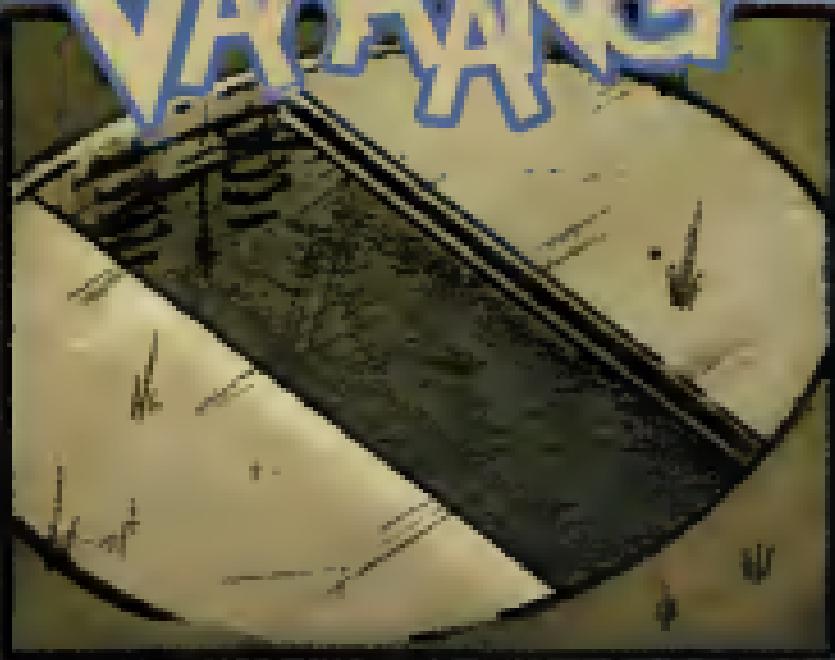

SO THIS IS
THE POINT OF
NO RETURN.

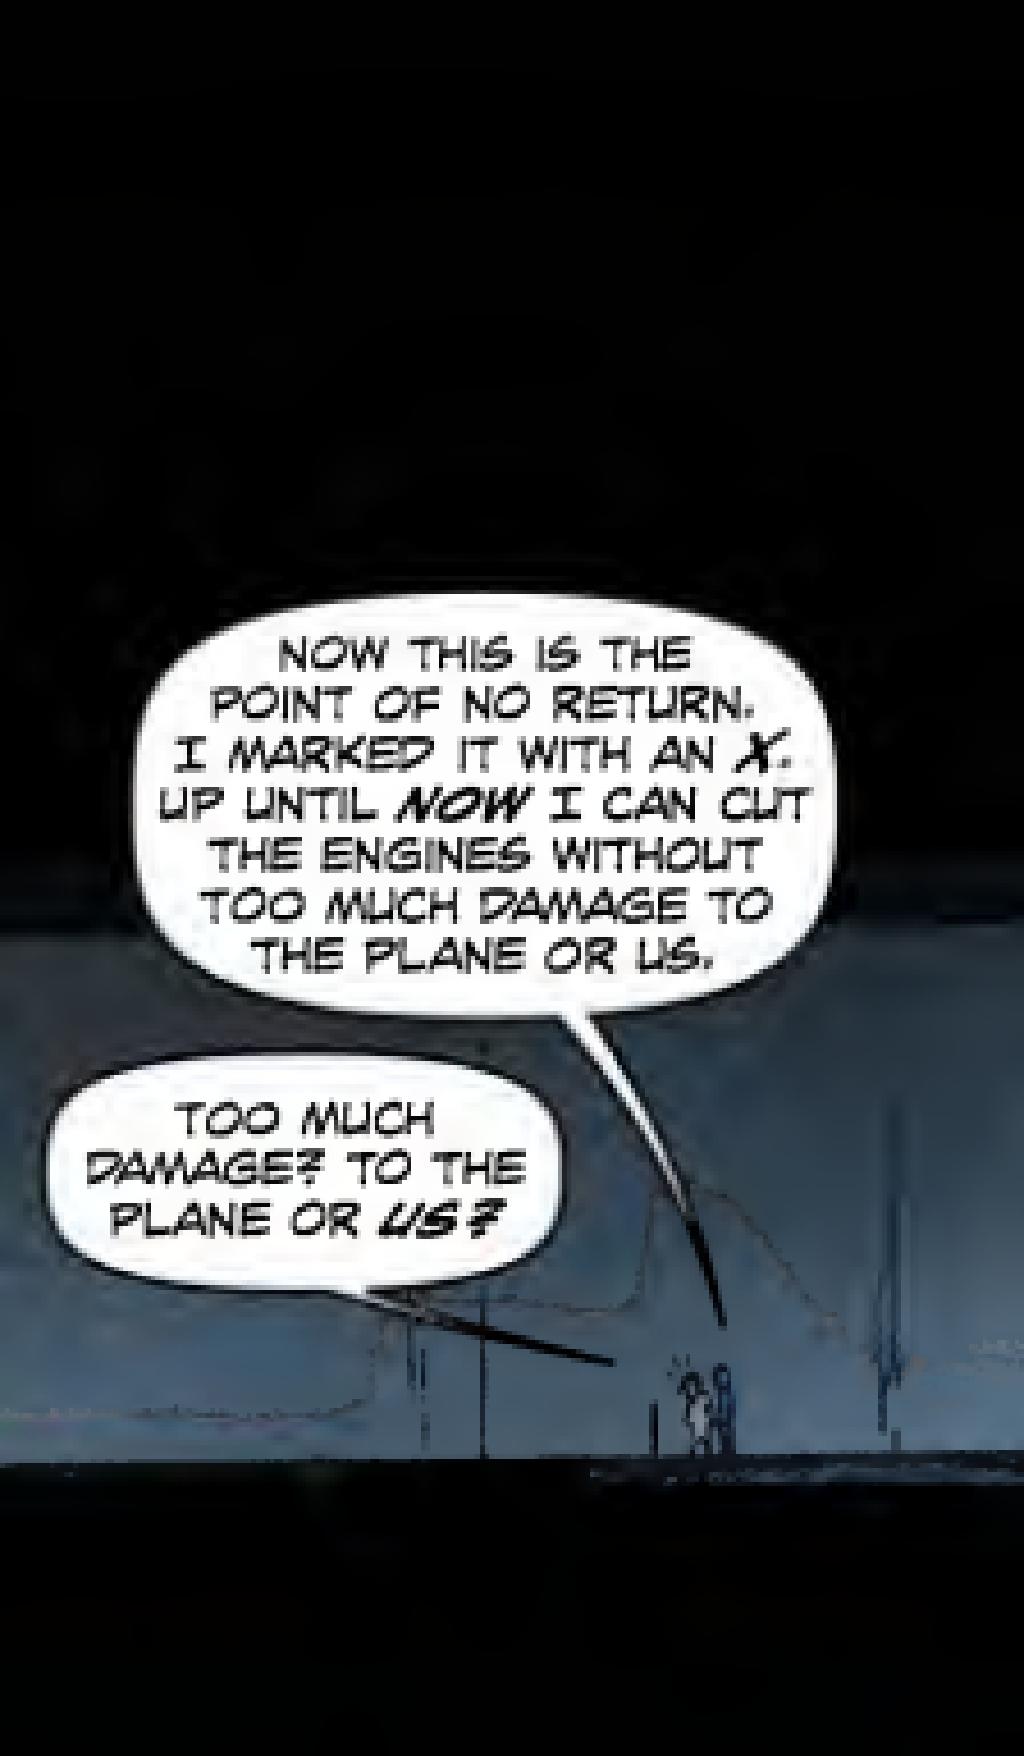

NO THIS IS WHERE
WE BEGIN THE ACTUAL
LIFT. OUR SPEED SHOULD
BE ENOUGH TO LAUNCH US
OUT OF... FINE I'LL GO
OVER IT AGAIN.

CLICK

VAAAANG

NOW THIS IS THE
POINT OF NO RETURN.
I MARKED IT WITH AN X.
UP UNTIL **NOW** I CAN CUT
THE ENGINES WITHOUT
TOO MUCH DAMAGE TO
THE PLANE OR US.

TOO MUCH
DAMAGE? TO THE
PLANE OR **US**?

RIGHT AROUND HERE IS WHERE YOU COME IN. I'LL BE BUSY WITH TAKEOFF AND AS CO-PILOT YOU HAVE TO CHECK THAT WE ARE PAST STALL SPEED, MAKE SURE THE TEMPERATURE DOESN'T STAY IN THE RED TOO LONG AND MAKE SURE WE HAVEN'T SHIFTED TOO MUCH OFF TRACK AT IGNITION TO CLEAR THE TUNNEL.

GOT IT?

WAIT? MAKE SURE OUR SPEED HASN'T... SHIFTED RED? I'M GONNA HAVE TO READ UP ON THIS STUFF.

AROUND HERE THE
THRUSTERS FROM THE
ENGINE SHOULD HIT THEIR
TOP OUTPUT. ANYTIME BEFORE
NOW THE CEILING WOULD BE
TOO LOW AND THE SILO
WOULD CATCH FIRE.

THIS IS THE FABRICATION
SHOP. I MOLDED THE SKELETON
OF THE *FUSELAGE* IN HERE. IT'S
ALL AUTOMATED. IT'S ACTUALLY
PRETTY EASY TO USE.

THIS IS AN OLD FLIGHT SIMULATOR. NOT SURE HOW IT GOT DOWN HERE BUT I'VE BEEN THINKING WE MIGHT NOT BE THE FIRST TO HAVE DONE THIS...
WELL, TRY ANYWAY.

COOL SHIT,
MAN! YOU USE
IT YET?

UUUUUUHH... I...
IT'S... PRETTY
ANCIENT! STILL
FIGURIN' HOW
TO FIX IT...

DON'T SWEAT
IT, MAN. YOUR
DAD AND UNCLE
WERE THE BEST IN
ALL KOWLOON.
THIS STUFFS IN
YOUR BLOOD!

AND HERE
IS WHERE IT ALL
BEGINS. IGNITION
AND THEN...

...TAKEOFF.

YOU KNOW,
I WASN'T TOO
SURE ABOUT THIS, BUT
COMING DOWN HERE WITH
YOU THESE PAST FEW
MONTHS, I THINK
WE CAN DO IT.

NO, JIN.
I KNOW WE CAN.
AND THE PLANE
IT'S GONNA TURN
OUT GREAT.
